Talk to University Group

- Thursday evening, 14 April
- Sponsored by Universität Bibel Freundschaft Köln, an evangelical outreach to the University of Cologne
- My talk, in English with PowerPoint, was “Intelligent Design”

Talk to University Group

Intelligent Design: Was ist das überhaupt?

In Europa und Nordamerika hat "Intelligent Design" seit langem einen schlechten Ruf. Was ist denn überhaupt mit "Intelligent Design" gemeint?

Auf welche Beweise stützt sich diese Theorie? Wo kann ich selbst einen genaueren Blick auf derlei Beweise werfen?

Dr. Robert C. Newman (Ph.D., Astrophysik, Cornell University) hat sich in diesem Umfeld beschäftigt. Er ist Mitautor des Buches "What's Darwin Got to Do With It?" sowie des Kapitels "Artificial Life and Cellular Automata" in dem Buch "Mere Creation" (hrsg. v. William Dembski).

Die Universität Bibel Freundschaft Köln e.V. lädt herzlich zu einem Kurzvortrag von Dr. Newman mit anschließender Diskussion ein. Das Programm wird in englischer Sprache gehalten.

**Donnerstag, 14. April 2011, um 20 Uhr,
Berrenrather Straße 228**
